

## **LEGAL NOTICE – UTAH TRANSIT AUTHORITY**

The Federal Transit Administration (FTA) and the Utah Transit Authority (UTA) have prepared an Environmental Assessment (EA) for the proposed Sugar House Streetcar project. The EA describes the transportation and environmental impacts associated with constructing and operating a modern streetcar system that would provide service between UTA's Central Pointe TRAX Station at about 250 West and 2100 South in South Salt Lake City and the Granite Block development at Highland Drive and 2100 South in Salt Lake City, Utah in the Sugar House area (a total distance of about two miles). The streetcar would operate on the UTA-owned right-of-way along about 2300 South for its entire length. The proposed action includes seven stations: Central Pointe TRAX, State Street, 300 East, 500 East, 700 East, 900 East, and McClelland Street. Stations could also be considered at 600 East and 800 East instead of at 700 East and 900 East.

The EA was signed by the FTA on November 15, 2010, and is now available for public review and comment. The official comment period for this EA is from **November 19, 2010, to December 31, 2010**. UTA will hold a public meeting on **December 9, 2010**, at the Sprague Library, 2131 South 1100 East, Salt Lake City, Utah. The meeting will be held in an open-house format from 5:00 PM to 7:00 PM. The meeting will be accessible according to the requirements of the Americans with Disabilities Act (ADA).

The public can comment on this EA using a variety of methods including traditional mail, e-mail, comment form at the meeting, recorded comments at the meeting, and on-line comment form.

- Comments can be mailed to the Sugar House Streetcar Project, c/o Kerry Doane, UTA, 669 West 200 South, Salt Lake City, Utah, 84101.
- Comments can be e-mailed to [sugarhouse@rideuta.com](mailto:sugarhouse@rideuta.com).
